

Nautilus,
Design by Andrea Tosetto

Model Nautilus Spot

Strong design and leading-edge technology come together in this family of lamps characterised by a convex lens that projects the LED light wherever its needed or most preferred, for a truly efficient and personalised result. Versatile and dynamic, either on the wall or ceiling in a variety of versions and finishes, Nautilus lamps satisfy a full range of lighting needs, whether functional or purely decorative, in both residential and professional contexts. Nautilus is now available with a dim-to-warm function, which allows users to interact by adjusting the intensity of the LED light source from 2200 to 2700 kelvin.
